Erasmus+ Project

Let's share culture and history by using modern techniques and methods of learning and teaching

2nd Meeting – Escola Básica Elias Garcia, Sobreda, Portugal

22nd March 2018

In service training session - Padlet

What is Padlet?

Padlet is a software, available at - https://padlet.com/dashboard, people use to make and share content with others.

Somewhere between a doc and a website builder, Padlet empowers everyone to make the content they want, whether it's a quick bulletin board, a blog, or a portfolio.

Padlet is:
- **Easy and Intuitive** - you won't find a simpler way to publish original content on the internet.
- **Collaborative** - Invite others to work with you on shared projects, assignments, and activities.
- **Flexible** - Add any file type you wish, organize however you want, and make it as public or as private as your heart desires.
- **Beautiful** - Hit the design sweet spot with just enough options that you can add your personal touch, but won't be overwhelmed by customization menus.
- **Private and secure** - Make your padlets viewable only to a select group of people.
- It's free for schools

What is a padlet?

A padlet, with a lower-case "p" is the page you post content on. A padlet is like a little notepad to post thoughts, images, and files.

Examples of Padlets

https://padlet.com/about/gallery

- timelines
- photo contests
- biographies
- who are we – eTwinning

What can I post into a padlet?

Files of different types, such as
- video (ex. recorded, YouTube, Vimeo)
- audio (ex. recorded, Spotify, Soundcloud)

....
Participating schools
Greece – 35 Primay School in Patras
Italy – Istituto Comprensivo "San Giovanni Bosco – F. De Carolis" in San Marco in Lamis
**Poland** – Primary School in Rebkow
Portugal - Escola Básica Elias Garcia (escola sede) – Sobreda

- documents (ex. Microsoft Word, Google Docs)
- spreadsheets (ex. Excel, Google sheets)
- .PDF files
- Images (photos, illustrations, gifs, photoshop)
- Presentations (ex. PowerPoint, Keynote)

Let's create our own padlet

1st step – login (if you are already registered into the website) or register

2nd step – explore the dashboard

Make a padlet – to start a new padlet
Join a padlet – if you know the URL from a padlet and want to join/contribute to it
Gallery – examples of padlets from other users
Recents – your most recent padlets (those created by you and those to where you were invited)
Made - the padlets created by you
Shared – padlets shared by you with others or by others with you

3rd step – Make a padlet

Explore the various possibilities the website offers, according to your needs.

4th step – choose the option you like most. (My sweet canvas)

Title – give a title to your work
Description – give a short description
Choose wall paper – among the various wall papers available choose the one you like most / more suitable to your work

....
Participating schools
Greece – 35 Primay School in Patras
Italy – Istituto Comprensivo "San Giovanni Bosco – F. De Carolis" in San Marco in Lamis
Poland – Primary School in Rebkow
Portugal - Escola Básica Elias Garcia (escola sede) – Sobreda
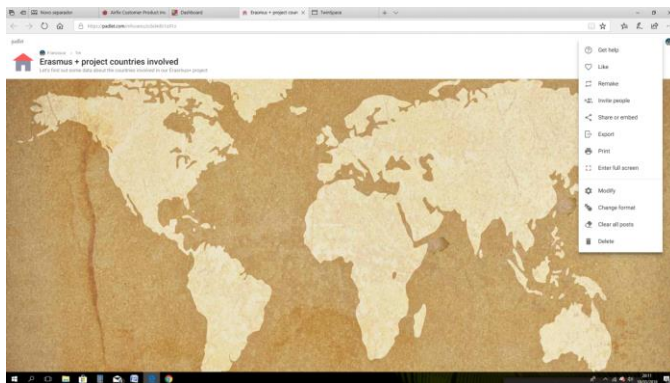

Icon – choose one if you want

When you click next your padlet will be saved.

Share your work with others

Add the email address from whom you would like to contribute to your padlet.

Add contributors – if you want to add others manually, you can enter their emails or usernames and adjust individual permissions.
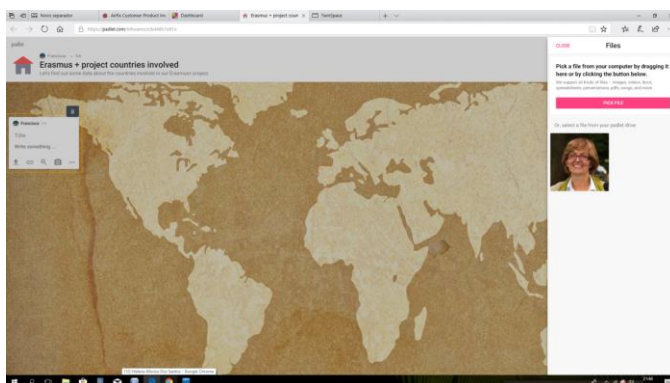

Edit your padlet

Add content to your padlet

Click on + and add your post. You can move it to anywhere you want.

....
Participating schools

Greece – 35 Primay School in Patras
Italy – Istituto Comprensivo "San Giovanni Bosco – F. De Carolis" in San Marco in Lamis
Poland – Primary School in Rebkow
Portugal - Escola Básica Elias Garcia (escola sede) – Sobreda

You can upload different files – picture, film, document, whatever - or you can write in your post.

Add contributions

Add contributors, or go on it alone.

The **Share** menu (top right) may look complex at first. There are lots of options so you can make content as public or as private as you want.

Privacy:
- Choose from 4 standard options: Private, Password Protected, **Secret [default]**, and Public. Choose whether people can read, **write [default]**, moderate, or administer your padlet.

Add contributors:
- If you want to add others manually, you can enter their emails or usernames and adjust individual permissions.

Advanced:
- Turn off remakes if you don't want others to copy your padlet to use as a template.
- Turn on moderation so that you can approve posts before they appear.

Share / export/embed

Share options can be found in the share menu in the upper right corner. The Share menu contains both privacy settings and sharing channels. To view sharing channels, tap the Share/Export/Embed tab.

Share the link.
You can always share your padlet by simply **copy/pasting the link in your address bar**. If your privacy is set to Secret and Can Write (the default settings), anyone with the link will be able to view and post to your padlet.

Send your work out to the world
When you're ready to share your padlets outside of your inner circle, go to the Share menu and select **Share/Export/Embed.**
Export your padlet as a file, embed it on your website, send the QR code, or share on social media.

Embed in the eTwinning website; send by email; share in Facebook.

Go to the TwinSpace of our project

Create a page

Copy the embed code from the padlet

Choose the option Font on your page at the TwinSpace of the project

Paste the embed code

It's done!!!!

Now you can add new posts in our TwinSpace.
